EDUCATION

CHANDIGARH GROUP OF
COLLEGES JHANJERI MOHALI

2022 - 2025

- Bachelor of Computer Applications

SKILLS

- **Programming Languages:**
Python, SQL
- **Data Handling:** NumPy, Pandas
- **Data Visualization:** Matplotlib, Seaborn
- **Databases:** SQLite, MySQL
- **Machine Learning Basics:** Scikit-learn,
- **Web Scraping:** BeautifulSoup, Requests
- **Tools:** Git/GitHub, Jupyter Notebook, VS Code
- **Soft Skills**
 - Problem Solving
 - Team Collaboration
 - Time Management
 - Communication Skills

PROFILE

Motivated and tech-savvy BCA graduate with hands-on experience in Python, SQL, and Machine Learning. Currently pursuing an internship in AI/ML at Meander Software, where I'm working on real-world projects involving data handling and automation. Passionate about building smart applications and aiming to become a skilled AI/ML Engineer.

WORK EXPERIENCE

- **AI/ML Intern**
Meander Softwares
 - Developed Python scripts for automation and data processing tasks
 - Built modules using SQLite3 for storing and managing structured data
 - Practiced machine learning concepts like data cleaning, preprocessing, and model building
 - Worked collaboratively with the tech team to implement AI-based features

PROJECTS

Movie Recommendation System | Python, Scikit-learn, Streamlit

- Developed and deployed a content-based movie recommendation system using TF-IDF and cosine similarity.
- Designed a user-friendly interface with Streamlit for real-time recommendations.
- Deployed the model online for public access.

Flask To-Do List App | Flask, Python, SQLite

- Developed a to-do list web app using Flask with CRUD operations for task management.
- Implemented user-friendly routes for adding, updating, and deleting tasks.
- Used SQLite for persistent data storage and Jinja2 templates for the front-end.
